

Sprint Retrospective

What we did well	What we can improve	Actions
<ol style="list-style-type: none">1. Great collaborative input from the team.2. Members were receptive and excited about the concept of having specific website for the department.3. All the members were willing to participate.4. Good pairing work between couple of members.	<ol style="list-style-type: none">1. Have precise and clear acceptance criteria for each user story.2. Find real users that match the personas were difficult3. Delay in dealing with some user stories.4. Lack of communication between members due to personal/family reasons.	<ol style="list-style-type: none">1. User stories with 5 or less points use minimalist time.2. Continue pair programming.3. Demo website design must be ready.
